

Litigation

Reinhart's experienced Litigation Team has the skills to win both inside and outside the courtroom. With a rich legacy of trial success to guide us, we consistently achieve justice and favorable results for our clients.

Our litigation strategies balance precision, creativity, and technology. Our attorneys have the knowledge to evaluate the strength of each case and know what it takes to win. We also understand that sometimes, the "win" means avoiding a long, protracted court battle. We manage cases efficiently by thinking creatively, collaborating wisely, and using the latest technology. In turn, it allows us to streamline our process, suggest alternative fee arrangements that keep your bottom line in mind, and often settle cases without the need for a costly trial. By ensuring our goals are always aligned, we help clients accurately evaluate return on investment and share the risks proactively.

Knowing how to win also means knowing the courts, and our trial teams include attorneys who have clerked for state and federal trial and appellate court judges (including the Wisconsin Supreme Court), and former prosecutors. We equip our associates with real-world case experience from day one, reinforcing that commitment through our [Pro Bono Program](#) and by placing them as Special Assistant District Attorneys in Milwaukee County.

Our litigation attorneys are leaders in the legal community, and we know the judges and opposing counsel well. We have served as presidents of the Milwaukee Bar Association, the Eastern District of Wisconsin Bar Association, the Western District of Wisconsin Bar Association and the Thomas E. Fairchild Inn of Court. By dedicating ourselves to these organizations, we enjoy credibility on the bench and among the bar. Several of our former shareholders have been honored to become trial and appellate court judges.

We are consistently ranked among the best in our areas of practice by our clients and peers. Large national firms rely on us for their local matters, and we have often been hired by previous opposing counsel, one of the highest compliments in our profession.
