

Prepare For Actual On-Site Auditor Questions and Requests

The following questions and requests were posed by actual government auditors - Zone Program Integrity Contractors (ZPICs) and Medicaid Integrity Contractors (MICs) - during on-site audits. Consider integrating this tool into your leadership and employee training, and use these questions and requests to test your audit preparedness. While not everyone in your organization will know the answer to each question, you can use this tool to (i) identify the “go to” person for the information and where it is maintained, and (ii) plan for how that information can be assembled and provided to the auditors.

(This list is also available in a [PDF / print friendly version](#) for your convenience.)
