

## Reinhart Selects E-Discovery Platform for Its Large-Scale Review Capabilities

MILWAUKEE – [Reinhart Boerner Van Deuren s.c.](#) (Reinhart) announces that the firm has implemented Relativity for e-discovery document review. Developed by kCura, Relativity's production capabilities and ease-of-use allow the firm to easily meet deadlines and provide cost-effective review for their clients.

"Relativity is the workhorse of the industry," said Bill Boren, Litigation Support Specialist at Reinhart. "With Relativity, we've got enterprise-grade software that enhances our ability to take on high-volume cases and support clients with highly complex matters. Our case teams love it because it allows them to quickly respond, even to the strict production requirements of government agencies. In as little as 20 minutes of training, attorneys who've never used the platform can navigate records, conduct basic searches, and code documents."

Reinhart chose Relativity for the following benefits:

- Flexible Production Options
  - Relativity gives Reinhart's case teams flexible options for the production and export of documents, helping them meet critical deadlines for complex commercial litigation and second requests.
- Collaboration
  - Relativity allows Reinhart's attorneys to collaborate with their clients and expert witnesses to find key documents.
- Large-Scale Review
  - Reinhart can quickly scale Relativity to take on multi-million record cases, allowing them to meet the needs of clients.

"It's great to work with a firm that is so committed to their clients," said Andrew Sieja, president and CEO of kCura. "We're thrilled that Reinhart's firm-wide investment in Relativity makes us a part of that commitment. We look forward to supporting the firm as they continue to provide excellent legal services for their clients."
