Tax

Our Tax Practice has its roots in the earliest days of the firm and is now the largest in Wisconsin. We've earned our reputation for providing our clients with cost-effective and practical solutions to a wide variety of tax and legal challenges. We are well-versed in a wide range of issues, handling the entire continuum of tax law, from reducing tax liabilities to defending audits to tax controversy and litigation. Our attorneys listen to your goals, are responsive to your needs and, most importantly, get results.

To make sound business decisions you need access to clear and consistent information – particularly how taxation can affect your finances. We stay ahead of continuously changing laws and regulations and find creative yet practical solutions for our clients.

Because our team understands and appreciates how business decisions are made, we frame tax advice in a larger business context. Our thorough, proactive approach gives you confidence that comes from knowing we deliver customized tax law solutions optimal for your unique situation.

We serve Wisconsin-based, national and international businesses and represent clients at the local, state and federal level. Our experience includes successful results in tax cases before state and federal trial and appellate courts including the United States Tax Court, federal district courts, the Seventh Circuit Court of Appeals, the Court of Federal Claims, the United States Supreme Court, the Wisconsin Tax Appeals Commission, Wisconsin circuit courts and the Wisconsin Court of Appeals.

Our long-standing and respected relationships with taxing authorities bring an unmatched level of sophistication to all our tax representations, whether the matter involves tax planning, auditing or litigation services.

Many of our attorneys teach or have taught other tax practitioners at the University of Wisconsin-Milwaukee's Masters of Tax program, Marquette University Law School and other tax-related seminars and programs. Our tax practitioners have authored and co-authored tax textbooks, treatises, scholarly articles and publications, and several of our attorneys are former IRS trial attorneys.
